ODDBALL ROTARY VALVES

INTRODUCTION

Oddball Rotary Valves are Rotolok's range of special sized Rotary Valves. However, Rotolok manufactures even more than are listed here, including some round inlets to square outlets and the range is continuously being extended. For our standard size valves please refer to our Rotary Valves/Airlocks page. If you require a special valve that does not appear here please contact our sales office as we may design and manufacture to your requirements.

SPECIFICATION

BODIES

Cast Iron, Stainless Steel or Aluminium precision bored

END COVERS

Cast Iron, Stainless Steel or Aluminium spigot located in body for concentricity

BEARINGS

Generally sealed-for-life-ball type rigged outboard or high temperature type above 250°C

ROTOR

Fabricated Mild or Stainless Steel

SHAFT SEAL

Gland type with PTFE packing

DRIVE

TEFC geared motor unit side wall mounted to valve body and complete with taper lock sprockets chain drive all in an enclosed guard.

STANDARD FEATURES

- Maximum number of blades in contact with body at one time without affecting throughput.
- Good throat opening at valve entry allowing for high pocket filling efficiency.
- Minimum clearance at rotor tips and sides with body.
- Robust body adequately stiffened to prevent distortion.
- Heavy shaft diameters minimising deflection.
- Outboard bearings for on-contamination.
- Packing gland type seals.
- Maximising valve speed to 25 RPM prolonging life, ensuring good throughput.
- Precision machining of components.

OPTIONS

- | | | |
|-------------------------|-----------------|------------------------------|
| • Quick Release Rotors | • Body Vents | • Flame-proof Motors |
| • Direct Coupled Drives | • Dropout Boxes | • Shear plate Deflectors |
| • Air Purge Glands | • V.S. Drives | • Electroless Nickel Plating |
| • Lip Seal Shaft Seals | • Speed Switch | • Hard Chrome Internals etc. |

CAPACITIES

The capacities of the Oddball valves are in the last column of the valve size charts, in litres per rotor revolution. See standard Rotary Valve capacity chart for comparisons at various valve speeds.
